The deliberations of the Legislature at this session may be expected to be chiefly upon unit- No. 68, Third st., opposite Waker's Exchange, ters of more than us all interest. The interval would in any case suggest many subjects, for legislation; but the two years which will have passed in this ease are peculiar in this respect. In them the Revised Statutes have for the first time gone into operation superseding the previous statute law of the state. Although prepared with great care, they are doubtless, like other human productions, imperfect; and t may be expected that many modifications of their provisions will be suggested, and some adopted. The Code of Practice is also yet quite new, as well as incomplete. It is presumed that the part yet lacking will be supplied; and it may be anticipated that sume provisions of the part already in operation will be the subect of discussion and of propositions for change. The question of a free banking law; of theoliability of railroad companies for the destruction of life; of a home-stead exemption; of a mndifieation of the law regulating interest; of a change in the mode of punishing infractions of the license laws, and perhaps of a law prohibiting the manufacture or sale of spirituous liquors altogether-these and many other subjects of scarcely interior importance may be expected come up for consideration. The interest of he session will also be encreased by the election f a Senator in Congress, to serve six years from

the third of March, 1855. The Commonwealth will give accurate daily reports of the proceedings of both houses.

As it is supposed that the impurtant subjects claiming the attention of the General Assembly will prolong its session to three months, the price of the paper is fixed for that period; but in case of an earlier adjournment, the subscriber will be compensated by receiving the Weekly Commonwealth to the amount of the deficiency.

TERMS. The Daily Commonicealth, for the session, will be \$1.50. Any person proenring five subscribers, and forwarding us the money, shall have a sixth copy for his trouble.

The Weekly Commonwealth will be furnished

to subscribers, during the session of the Legislature, for 75 cents; and for a year, including the session, for \$2. Persons procuring five subscribers to the session weekly, or yearly weekly, and forwarding the money to us, shall re-ceive the sixth copy free of charge.

The Remittances may be made by mail at our risk.

TO COMMISSIONERS OF TAX, &c. Your attention is respectfully requested to the Laws concerning the Assessment of Property for Taxatton, copies of which have been sent to the Clerks of the several County Courts for dis-

tribution.

In fixing the value of property, you should endeavor to ascertain its full and fair value—not what it would sell for at a forced cash sule, nor up on long credits, but rather a medium between the two. Much depends on the manner in which your duties are performed. If the laws are complied with according to their true intent and meaning, justice will be done both to the government and to those who contribute the means. ernment and to those who contribute the means

for its support.

Shoubi there be any great decrease in the value of any item of taxable properly, I hope each Commissioner will note the fact at the end of Commissioner will note the fact at the end of his book, stating the cause of such decrease. I find a considerable decrease in the value of property in several counties for the year 1853, but I do not see any statement made by the Assessors of Tax stating the cause of 11. I do hope the Assessors will be particular and report all facts connected with this part of their duty.

I find the value of land per acre has decrease I in the following counties, viz:

BOYLE, BREATHITT, CALDWELL, HENRY,

in the following countries, viz:

PERRY, ROCKCASTLE, WHITLEY.

It does appear to me, that instead of this state of case, there should be an increase in value in each of sail counties. The attention of the Assessor of Tax is particularly called to this mat-

will be attended to promptly.

The attention of the Boards of Supervisors is particularly called to that part of the law in reference to their duty, as much will depend upon the manner in which that duty is performed. In pumy countries I find that the Boards of Eupervisors have acted promptly and efficiently in relation to their duty; but I am afraul it has not been so with all. The attention of the Board is called to this matter, and it is hoped they will be particular and have this duty

promptly actended to in all the counties.

I also append to the Circular the law and instructions relative to the Registration of Births. Deaths, at I Marriages. This is considered a matter of great importance, and it is hoped that all concerned will attend strictly to the duty re-

I find great neglect of duty in relation to furnishing the names, post offices, &c., of the diafand dumb and blind within the State. Hereafter, I hope, the Assessors will be more particular, and give us a full list of this unfurturate class of citizens. It is a matter of great importance to the institutions who have charge of such persons, and at their particular request make this appeal.

TO PHYSICIAPS, SURGEONS, AND MIDMAR ASSESSORS WIVES.

It is generally known that at the last session of the Legislature of Kentucky, a law was passed, requiring a Registration of all the Births, Marriages, and Deuths which should occur thereafter, but it does not appear that all physicians, surgeons, and neidwives understand what the law requires a table was understand to law the law to law the law the law the law the law the law the

riages, and Dealts which should occur thereafter, but it does not appear that all physicians, surgeons, and reidwives understand what that law requires at their hands.

To extend more widely a knowledge of the ltw, copies are sent to the County Court Clerks for distribution—as also copies of the certificates which they are expected to fill and return to the clerk's utilize

These certificates, as well as one filled up, you will find deposited in the electr's office, where you can get as many as you may keed. You will find it in ich more convenient to fill these. all the facts will be fresh in your mind, and if any fact is in known, then will be the best time to inquire for it. It is of much consequence that these contributes be properly filled at the time, and be handed to the clerk before the tenth of January each year, because on that day the assessor of tax receive their books, and these certificates are necessary to the proper collection of the facts pertaining to Registration. To make this measure popular, public opinion in ist be ealightened upon the subject, and the counterman of intelligence and Damel Carroll's heirs, 4000 acres; Green county, on Russell's creek; entered and surveyed to Water Scot; patented by McLaton; taxes due for 1851, 52; amount \$10.20 acres; Green county, on Russell's creek; entered and surveyed to Water Scot; patented by McLaton; taxes due for 1851, 53; 35; amount \$10.20 acres; Livingston county, on Ohio river; entered, surveyed and patent as the fact is microlly and the facts pertaining to Registration. No class to induce people to preserve their own health, as well as much to aid physicians in curring diseases. For it cannot be doubted that the possession of records. of men can do more in this notter than the meddiseases. For it cannot be doubted that the possession of reconds, thus collected, will be worth more to the man who makes them than will compensate him for the trouble, indepen-

dent of the benefit conferred on the public.

One of the principal designs of the law is to ascertain the causes of death in different regions, with as much precision as possible. reate of the physician who attended the case is essential to this accuracy.

In countries where registry laws have been long in use, they have become very popular, and the registry of Births, Marriages, and Deaths has come to be considered as important as the registry of deeds. A medical writer of England said recently: "For years our medical thousands have daily and hourly written out the causes of death, bringing the whole knowledge of the profession to bear on this single point as services. In the aggregate, the labor has been enormous, but it has been given, freely rendered, by the profession to the government,

Can it be that this labor, which is freely rendered to the government of Great Britain by the medical profession, will be withheld by the

physicians of Kentucky? It exmuot be.
I am confident that you will cheerfully aid in the cause of science and public good.

TO CLERGYMEN AND OTHERS AUTHOR-IZED TO SOLEMNIZE MARRIAGES

GENTLEMEN: At the last session of the Legis-lature of Kentucky, a law was passed, requiring a Registration of all Births, Marriages, and Deaths which should occur thereafter.

You are aware that for many years the law required degree to return the licenses, by authority of which they kad sulemnized marriages, to the clerk's office, with a certificate thereon that such marriage had been duly solumnized. Experience mayed that year many emniz d. Experience proved that very many clergymen failed to make a return of all the marriages solemnized by them. It is judged very important that the fact of marriage shoul! be returned in every instance. It is thought equally important that the facts relating to the arties married, which shall suffice to ilentify hem in after years, should also be recorded.

clerk's office before the 10th of January ench year. They are not to contain any marriage which may have taken place after the 31st of December then past.

It is important that these certificates should be lodged with the clerk before the tenth day of January, because on that day the assesors re-ceive their books for assessing taxable property and those certificates are to cessary to enablthem to make a proper return of the marriage relebrated in the county during the previous
